

CATASTROPHIC FIRE BAN DAY

The school will be notified of a **potential CATASTROPHIC** fire ban day the day before. The school will send home a note cautioning you that there may be a catastrophic fire ban day.

The school will not know until after school that there is a catastrophic fire ban day. Every effort will be made to contact parents that the school will be closed due to the catastrophic fire ban day.

The note being sent home with the children is only a warning to you that there might be a catastrophic fire ban. If you are unsure whether the school is going to be open or not come past the school and look for the sign. If you look after 5 and there is no sign the school will be **OPEN**. If the **SIGN IS OUT THE SCHOOL WILL BE CLOSED** the following day.
